TEMPERATURE.

The mean monthly temperature was 77·2 F. December was the hottest month with a temperature of 80·4. January was the coolest with 74·6 F.

BAROMETER.

The corrected reading of the barometer ranged between 30·072 inches on February 4th, and 29·715 inches on November 28th.

RAINFALL.

The rainfall recorded during the year 1909-10 was 106·77 inches. Rain was recorded on 286 days. The wettest month was June, with 20·12 inches. December was the driest month with 2·91 inches. The day of heaviest rainfall was June 19th when 3·43 inches were measured.

1910—11.
St. Vincent
## Mетеорологические отчеты — Апрель 1910 до Март 1911

**Ошибки в тексте:**

**Вопросы и ответы:**

**Вопрос:** Что представляет собой документ?

**Ответ:** Документ представляет собой meteorological returns от Botanic Station, 206 feet above sea level.

**Вопрос:** Какова структура данных в таблице от события дождь до события ветер?

**Ответ:** Таблица состоит из нескольких столбцов, включая месяц, данные о дожде, высоту и температуру, а также данные о ветре.
