

THE MAPS shown here are prepared from observations taken daily at hundreds of stations throughout North America. The observations taken at 1:30 a.m. E.S.T., at approximately two hundred selected stations are inscribed on the large surface map of the United States, southern Canada, northern Mexico, and Cuba.

A complete explanation of these maps (including all symbols and tables) is printed frequently on the reverse side. Periodically, during each month, climatological charts and graphs appear in place of the Explanation; and, occasionally, illustrated articles of special meteorological interest are published.

To subscribe to this publication, address application with Post Office money order or check, payable to Treasurer of the United States; and mail to the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Price daily including Sundays and holidays, 60 cents a month, \$7.20 a year.

WEATHER FORECASTS
U. S. WEATHER BUREAU, WASHINGTON, D. C.
WEDNESDAY, AUGUST 25, 1954

DISTRICT OF COLUMBIA AND VICINITY, some cloudiness but mostly sunny and quite warm and humid, highest near 94 today; partly cloudy tonight, lowest around 72; Thursday partly cloudy with scattered thundershowers likely and turning cooler by night.

MARYLAND AND DELAWARE, mostly fair, quite warm and humid but chance of a few scattered thundershowers today and tonight; highest today 90 to 95; lowest tonight 68 to 74; Thursday partly cloudy with scattered thundershowers likely followed by cooler in the afternoon or at night.

VIRGINIA, mostly fair, quite warm and humid but chance of a few scattered thundershowers in the mountain areas this afternoon and evening; highest today 88 to 96; lowest tonight 66 to 74; Thursday partly cloudy and continued warm with scattered afternoon or evening thundershowers followed by cooler in the north portion.

A complete explanation of the Daily Weather Map appears on the reverse side on Sunday of each week. Special articles relating to weather, when available, are published on other days.
