MONTHLY WEATHER REVIEW.

OCTOBER, 1872, TO DECEMBER, 1877.

(Indicates that the subject has been continued to date. The paging is that of the quarto edition. The reprint to June, 1885, in the Annual Reports, may be consulted readily with the aid of the table on the preceding page.)

A.

Alabama weather service, report........................................... Mar.'84†
Anemometer observations at sea (Waldo).................................... Jan.'87, 81
Annual summary for 1886...................................................... Jan.'87, 25-27
Aqueous vapor, absorption of radiant heat (Haga)........................ Apr.'77, 11
relation to perpetual snow (Croll)............................................ Oct.'80, 16
Arctic meteorology, results of Sherman's observations at Annan- tock............................................................... Feb.'79, 18
observations of the "Vega," 1878-9........................................ Nov.'79, 15
(See also, Ocean currents; Temperature.)
Arkansas weather service, report............................................ Jan.'87†
Auroras, summary of observations............................................. Nov.'73†
description of remarkable............................................. Mar.'74, 4; May'77, 1-8; Apr.'80, 16
and magnetic disturbances.................................................... Apr.'82, 22; Nov.'82, 16-17
theory (Lemström)...................................................................... Mar.'87, 91
coincidence with sun spots (Veeder)........................................... July'87, 208

B.

Balloon ascensions, Nashville, Apr. 3, June 18 and 19, 1877... Apr.'77, 8, ch.;
June, 11, ch. iv
Bangkok, Siam, meteorology (Campbell)..................................... Sept.'79, 15
Barometer, Guthrie's.............................................................. May'77, 10
effect of wind and exposure on readings (Abbe)......................... Nov.'86, 322-338
comparison of Signal Service with other standards (Waldo)........ Apr.'87,
119-121
Birds, migration................................................................. Feb.'74†
Black rain................................................................. Dec.'73, 3
Botanical phenomena, summary.............................................. Mar.'74†

C.

California, six year periods of rainfall.................................... Jan.'84, 28
Cautionary signals, summary and verification............................... Nov.'73†
order instituting northwest signals.......................................... Feb.'81, 12-13
property detained in port by, during October cyclone................ Oct.'82, 6-7
value, letter of Sec'y N. Y. Maritime Exchange......................... Oct.'85, 248
Cerro de Pasco, Peru, summary for May-Dec. '78 (Ward)............. Mar.'79, 8
Charlotte, Vt., monthly rainfall 1868-82 (Wing)....................... Mar.'88, 84
Charlotte, S. C., daily cloudless precipitation......................... Oct.'87, 267
Charts, tracks of storm centres (low areas)............................. Oct.'72†
(iso limit and N. Atlantic storms, Jan.'84†; fog belts, July,'87†)
isobars, isotherms, and winds.................................................... July'78†
lines of equal monthly range of temperature............................. July'78
precipitation................................................................. July'78
tracks of areas of high barometer.......................................... Aug.'78†
international meteorology, ocean storm tracks.......................... Nov.'78-Mar. 61
international chart, mean temperature, pressure, and winds, Sept.'77-Oct.'80.............................................................. May '79-Dec. '82
(see in Review, Apr. '80)
international chart, tracks of centre of low barometer, Nov.'77-Jan.'81.............................................................. Jan.'79-Dec. '82
map of cotton-belt stations.................................................... Apr.'82, vi
ice limit................................................................. Apr.-July '82

(included in Ocean storm charts, Feb.'83)
West India hurricane tracks, 1873-81..................................... May '82, viii
No. Atlantic storm charts, suppl. to ch. 1................................ Oct.'82-Dec. 88;
(foresee in ch. 1, Jan.'84†)
frost limit........................................................................... Sept.'88, v; Aug.'84, iv
Charts, departures from normal pressure and temperature........ Aug. '84
curves of meteorological elements at Pekin, Ill., Mar. '86, Apr. '86, Mar. '86
curves of electrometer readings.................................. Apr. '86-Apr. '87, July-'86
Tornado tracks......................................................... July-Sept. '86
Thunder-storm distribution......................................... Aug.-Sept. '86
Charleston earthquake area......................................... Aug. '86, viii
Annual mean temperature, 1886, and departure from normal.... Jan. '87, vii
Annual precipitation, 1886.......................................... Jan. '87, vii
Average storm tracks for March, 1878-85......................... Mar. '87, vii
Rain frequency and wind rose for April......................... Apr. '87, vii
Wind rose for April.................................................. Apr. '87, vii
Soil temperature and moisture, June '86, '87..................... June '87, v
Normal and mean temperatures for month......................... July, Nov., Dec. '87
Meteorological and health chart of Ohio, Aug. '87............. Aug. '87, v
Cincinnati, Ohio, lowest temperatures, 1856-84 (Harper)....... Jan. '84, 18
Climate of British colonies (Symons)........................... Oct. 77, 11
Bangkok, Siam (Campbell)........................................ Sept. '87, 16
Europe................................................................. Feb. '81, 18-19
Palestine (Merrill).................................................. Aug. '88, 193-194
Fiji Islands, 1876-86 (Vaughan).................................. Oct. '87, 296
Cloud bursts, special notices...................................... Aug. '76, 6; Feb. '78, 7; July, 8;
June '81, 22; Aug., 25; Mar. '84, 81; June, 160, 161; July, 178; May '85, 130
Report and remarks on [Steeby].................................... July '85, 181-182
Cloudiness, annual mean at Lawrence, Kansas, 1868-82 (Snow)... Dec. '82, 16
Clouds, peculiar arrangement..................................... July '74, 5; Nov. '83, 284
Photography (Hildebrandson)...................................... Nov. '78, 11
Study of movements (Abbe)........................................ Nov. '78, 11-12
As weather signs (Ley)............................................. Jan. '79, 14-16
And cyclones (Ley)................................................... Nov. '79, 16
Luminous description, with map (Munson)........................ Apr. '86, 104-104
Cloudy days, summary............................................... May '74†
Cold wave, remarkable.............................................. Jan. '86, 2-4; 8 ch.
Cold-wave signals, circular introducing system................ Nov. '84, 282
Verifications......................................................... Nov. '84†
Value, extracts from reports..................................... Oct. '85, 200
Colorado meteorological association, extracts from bulletin... Apr. '86†
Colorado Springs and Denver, temperature and rainfall, July
1872-86; Mar. 1872-87............................................. July '86, 202; Mar. '87, 87
Comfort, Tex., monthly and annual rainfall, 1877-88 (Pettersen).... Dec. '88, 281
Cotton region, climate............................................ Apr. '76, 8
List and map of districts and stations......................... Apr.-Oct. '82; May-Oct. '86, '84†
Texas, rainfall, 1882-6............................................ Sept. '86, 260
Rainfall and temperature for 1882-6, with average acreage
and yield (Dodge).................................................. Oct. '88, 289
Cumberland, Md., temperature and precipitation for Jan.-May
1875-87............................................................... Jan. Mar.-May '87
Cumberland river flood, special report.......................... May '86, 146
Cyclones, origin (Hann)........................................... Sept. '77, 12
Characteristics of Atlantic and Indian (Wagner and Indian, July
1872-86; Mar. 1872-87)............................................. July '86, 202; Mar. '87, 87
Dewpoint, table, with rainy and cloudy days and relative
humidity.......................................................... Mar. '88-Sept. '84
Droughts, summary ................................................. May '74†
special ........ Aug. '77, 6; Apr. '79, 9; Oct. '72, July '73, 21-22; Aug.,
20-22; Sept., 22-23; Nov. '77, 607-806
Iowa, belt of continuous (Hinrichs) .................. July '86, 199
Dakota and Minnesota, 1886 (Brandenburg) .... Nov. '86, 826
Kansas and Texas (Hazen) ............................... Apr. '87, 121
May-Sept. 1882, with precipitation tables .......... Oct. '87, 262-288

E.

Earthquakes, summary ........................................ Feb. '74†
and sea wave over the Pacific Ocean, May 9 .......... May '77, 9-10
Sitka, Alaska, 1880 ........................................ Jan. '81, 17-18
Island of Ischia .............................................. July '86, 169
Constantinople ............................................... Oct. '86, 237-288
eastern United States, reports ..................... Aug. '84, 201-204
Vévay, Ind., connection with meteorological phenomena
(Börner) ......................................................... Sept. '84, 226
Charleston, special report (Mendenhall) ............ Aug. '86, 283-286, ch. vii
Earth temperatures, variation with coverings (Becquerel) ......... Jan. '88, 23
and moisture (Whitney) ................................... June '87, 177-178, ch. v
Eclipse, solar, observations of duration of totality .......... Aug. '78, 14
Electrical observations, summary, with chart .......... Apr. '86-Apr. '87
simultaneous readings at Smithsonian and Signal Office. May-June '86, ch
simultaneous readings at Washington Monument and Signal
Office .......................................................... June '86-Apr. '87, ch
thunder-storm at summit of Washington Monument ........ June '86, 167
mean values for Washington, Boston, and New Haven .......... Aug. '86, ch. vi
Electrical phenomena, summary ........................ Feb. Apr. '74†
on Pike's Peak .................................................. Aug. '76, 6
telegraphic ................................................... Apr. '76†
with sand storm ................................................ Mar. '80, 13
remarkable luminous cloud, with cut (Munson) .......... Apr. '85, 108-104
Electricity, atmospheric, origin (Edlund) ............ Nov. '78, 12-13
memoir on (Everett) ......................................... Feb. '79, 13-14
variations in potential (Mascart) ..................... Nov. '79, 16-16
theory and law (Exner) ..................................... Apr. '87, 121-122

F.

Fiji Islands, monthly pressure, temperature, and rainfall, 1875-86
(Veitch) ......................................................... Oct. '87, 298

Fires, prairie and forest .................................... Dec. '78; Apr. '74†
Fishes, appearance in rivers .............................. Apr. '74†

Mississippi and Ohio valleys ................................ May '74, 6; June '80, 9-10; June '81,
20-22; Oct., 18-20; Feb. '82, 18-21;
Mar., 18-19; Feb. '82, 42-46; Feb. '84,
61-66; Mar., 80-81; Mar. '86, 74-75;
Apr., 102-108; May, 132-194
Sacramento valley ........................................... Feb. '78, 6-7
Tucson, Ariz ............................................... July '78, 8
Chicago, Ill .................................................... July '78, 4
Savannah river ............................................... Sept. '78, 9
Pacific coast .................................................. Jan. '81, 14-15
United States, general ..................................... Feb. '81, 14-16
Nashville, Tenn ............................................... Jan. '82, 18-20
Saint Louis, Mo ............................................. Apr. '82, 21
Deadwood, Dak ............................................. May '83, 119
Yuma, Ariz ...................................................... Mar. '84, 81
Texas ......................................................... May '84, 181; May '85, 129-130
Mexico ............................................................ June '85, 157
New England .................................................. Feb. '86, 47-48
Cumberland river .......................................... May '86, 148
Fog, cause in United States ............................. Dec. '78, 8
annual wave at New Westminster, B. C. ............ Nov. '78, 10-19; Oct. '81, 28
North Atlantic ............................................... Oct. '86†

(On ch. 1, Low areas, July '75)
Fog, predictions for Newfoundland banks and U. S. coasts (Garriot).................. Mar. '87, 91; Apr., 122; May, 150; June, 176-177; Dec., 386-387

Fogbrows .............................................. Jan., July '74†

Foggy days .............................................. Dec. '76†

Forests, influence on rainfall (Pouset) ............................................. May '77, 11
(Fautrat) .............................................. May '80, 15-16

temperature (Nature) .......................................... Apr. '79, 16

Fort Gibson, Ind. T., monthly and annual precipitation, 1856-'86. Dec. '87, 287

Fort McPherson, Nebr., results of observations, 1870-8 ............. Feb. '87, 64

Frosts, summary of observations ............................................. Oct. '73†
specially destructive ............................................. Apr. '76, 6, 8; May '84, 123-125
table of first, reported at 7.35 a. m. at U. S. stations .................. Sept. '78, 8
chart of limits ............................................. Sept. '83, v; Aug. '84, iv

first and last, at Lawrence, Kans., Oct.-June, 1868-'84... Oct. '83-June '84

Wauseon, Ohio, 1870-'88 ..................................... Dec. '83, 277

New Orleans, 1870-'84 ......................................... Apr. '84, 118

Signel Service stations, 1876-'84 ..................................... Oct. '85, 254

remarkable phenomena ............................................. Mar. '87, 91; June, 177

Frost warning signals in Northwest ........................................ Mar. '87, 91

Galveston, Tex., monthly rainfall and mean max. and min. tem-
perature, Apr.-Oct., 1882-6 ...................................... Oct. '86, 289

Georgia weather service, report ........................................ Apr. '84-Sept. '86

Gravity correction.............................................. Feb. '85, 81

Greenwich observations for 1864-'73 (Buchan) ....................... Oct. '73, 16

Ground currents, summary of observations ................................ Feb. Apr. '74†

Hail, remarkable............ May '74, 4; Sept. '75, 6; August '76, 6; Apr. '77, 6, 
cut; May, 6; July, 6; Aug., 6; Sept. '79, 16; July, 12; 
Apr. '80, 10; May, 8; July, 9-10; June '81, 16-17; 
July, 16-17; Sept., 18; May '82, 16; June, 14; May 
'83, 112-113; July '84, 168-169; July '88, 158

from clear sky .............................................. July '88, 158

Hail-storms, summary ............................................. Apr. '74†

origin (Vignier) ............................................. May '77, 11

report for the month (Finley) ...................................... July '86, 187

special report (Pendleton) ....................................... June '87, 166

Halos, summary .............................................. Nov. '78†

remarkable solar .............................................. Dec. '78, 8, cut; July '79, 15; Nov. '80, 15

indicating coming rain or snow (Laughlin) ................................ Dec. '86, 320

Hampshire natural history society, temperature observations .... Mar. '87, 88

Health (see Medical meteorology).

Helvetia, W. Va., monthly mean temperatures, 1876-86 (Stucky). Dec. '86, 801

Hoar frost, theory (Novel) ........................................ May '79, 16-16

Hopkinton, Iowa, monthly and annual mean temperatures ............ Nov. '87, 315

Hudson river, years in which closed at Albany during November, 
1796-1880 .............................................. Nov. '88, 260

dates of closing at Albany, 1867-87 ................................ Dec. '87, 331

Humidity, summary .............................................. May '74†
table of relative, for districts ...................................... May '82-Sept. '84

annual percentage at Lawrence, Kans., 1869-'82 (Snow) ........ Dec. '82, 16

Hygrometer, Edison's thermometer as ................................ Nov. '78, 12

(See, also, Psychrometer).

Ice, river and lake .............................................. Oct. '78†

first formed .............................................. Oct. '74†

(See, also, River reports.)

Ice, river and lake .............................................. Apr. '75†
table of icebergs for Feb.-June, '80 ................................ June '86, 12-13

chart of limit in No. Atlantic ...................................... Apr. -July '82

(On chart, Ocean storm tracks, Feb. '83-1)
Ice, table of southern and eastern limit for month compared with preceding years...
connection with sun-spots (Archibald)...
Illinois, precipitation and temperature tables, by districts...
Illinois weather service, report...
Indiana weather service, report...
Indications, verifications...
Insects, appearance and injury to vegetation...
Intercolonial meteorological conference...
International charts, mean temperature, pressure and winds, 1877-80 (Sept. 77 in Review, Apr. 80).
tracks of low barometer, Nov. '77-Jan. '81...
plan...
value (Nature)...
review for Aug. '78 (Nature)...
International meteorology, summary, Nov. '77 (Incl. in chart, Tracks of low areas, Jan. 81).
chart of ocean storm tracks, Nov. '78 Mar. '81; Oct. '82-Dec. '83.
Iowa weather service, report...
Kansas droughts (Hazen)...
Kansas weather observer, extract...
Kansas weather service, report...
Kirkwood, S. C., monthly and annual rainfall and no. of rainy days, 1866-86 (Macrae)...
Krakatoa smoke and the red skies (Kisseling)...
L. Laconia, Ind., monthly, annual, and seasonal rainfall, 1866-82 (Crozier)...
Lafayette, Ind., max., min., and mean temperatures for Jan. 1880...
Lawrence, Kans., annual mean and extreme temperatures, 1868-82 (Snow)...
annual rainfall, snowfall, rainy days, humidity, and mean cloudiness, 1868-82 (Snow)...
weather of winters 1867-84 (Snow)...
comparative temperature of Dec. 1882-86 (Snow)...
means of observations for Oct.-June, 1868-84 (Snow)...
Leavenworth, Kans., five-year means of precipitation, 1837-86...
Lightning, summary...
remarkable ball...
frequency of strokes (Hellmann)...
Lightning conductors, efficiency (Holts)...
Lima, Ohio, monthly mean temperature, Jan. 1866-Oct. '87, and precipitation from Jan. '81 (Davis)...
Little Rock, Ark., monthly rainfall and mean max. and min. temperatures Apr.-Oct. 1892-6...
Local weather signals, verifications...
Louisiana weather service, report...
M. Macon, Ga., monthly max. and min. temperatures, 1871-82 (Boardman)...
monthly and annual rainfall, 1871-82 (Boardman)...
Magnetic declination, average diurnal range (Harrison)...
San Juan valley, Colo. (Hess)...
and thunder-storms (Hazen)...
and sun spots (Hazen)...
Magnetic storm at Zi-Ka-Wei (Dechevrens)...
Kew Observatory (Whipple)...
Greenwich (Christie)...

K.

L.

1837-
Marine agencies, circular relative to establishment .......... Jan. '85, 7
Medical meteorology, temperature and mortality .......... Apr. '79, 16
value of study (Baker) ...................................... Dec. '82, 25
causes of pneumonia (Baker) .................................. Nov. '88, 334
meteorological and health chart for Ohio, Aug. '87 (Eggles-
ton) .............................................................. Aug. '87, 234, ch. v
Memphis, Tenn., monthly rainfall and mean max. and min. tem-
perature, Apr. - Oct. 1882-6 .................................. Oct. '86, 289
Mercury, observations of transit .............................. May '78, 13
Merritt's Island, Fla., monthly rainfall, 1878-85 (White) .... Dec. '86, 804
Metereos, summary .............................................. Feb. Apr. '74†
special study .................................................... Dec. '76, 9-10
height (Köh) .................................................... Nov. '78, 11
description of remarkable (Hagen) ......................... Jan. '86, 23; Mar., 85-86
Michigan weather service, report ........................... July '84†
Migration of birds .............................................. Feb. '74†
Minnesota weather service, report .......................... Jan. '85†
Mirage, summary of observations ............................ June '74†
Mississippi river, highest stages at Saint Louis, 1872-87 ... June '86, 142
Mississippi weather service, report ........................ June '84†
Missouri river, change in channel at Yankton ................ Apr. '79, 12
Missouri weather service, report ............................ Apr. '88†
Moisture and temperature of soil (Whitney) ............... June '87, 177-178, ch. v
Myer, A. J., order announcing death ......................... Aug. '80, 1

N.

Navigation, inland ................................................. Mar. '74†
opening of harbors ............................................. May '74†
Nebraska, temperature and rainfall for Apr. July-Nov. 1878-
1886 .............................................................. Apr. July-Nov. '86
temperature for March, 1875-87 ................................ Mar. '87, 89
Nebraska weather service, report ............................ Feb. '83†
Newark, N. J., monthly and annual precipitation, 1843-87
(Ricord) ................................................................ Nov. '87, 816
New Bedford, Mass., coldest winters since 1812 ............ Apr. '76, 5
New England meteorological society, report ................ Dec. '84†
New Jersey weather service, report .......................... Apr. '83†
New Orleans, first and last frosts and snowfalls, 1870-84 ... Apr. '84, 13
monthly rainfall and mean max. and min. temperatures, Apr.-
Oct. 1882-6 .......................................................... Oct. '86, 289
New Umatilla, Oregon, and mean precipitation, 1872-87
(monthly and annual mean temperatures and precipitation,
1872-87 (Runge) ...................................... Dec. '87, 837
New Westminster, B. C., means of observations for 1884 .... Jan. '85, 26
New York City, total and annual average precipitation for each
five years, 1887-181 .................................. Sept. '82, 19
heavy rainfalls, 1889-87, with discussion of rate (Draper). Dec. '87, 828-829
North Atlantic (see Charts: Fog; Ice: International meteorology:
Storms: Weather charts).
North Carolina weather service, report ......................... Jan. '87†
North Lewisburg, Ohio, temperature for 58 years (Gowey) ... Sept. '85, 228
Notes and extracts ................................................. Apr. '77†

O.

Observations, summary for stations of Signal Service .......... Aug. '84†
record of voluntary observers and army surgeons ......... Aug. '84†
Ocean currents, caused by wind, on coast of Chil ................ Aug. '78, 8
Greenland and Iceland (Hoffmeyer) .......................... Feb. '81, 19-20
Ocean fluctuations at Nagasaki (Coffin) ...................... Oct. '77, 11
Ocean temperature (see Temperature of water). ............... Jan. '86, 29
Ohio, comparative summary of observations, 1888-6 ............ Jan. '86, 29
Ohio meteorological bureau, report .......................... Apr. '88†
Ohio river, highest stages at Pittsburgh, 1810-91 ............ June '81-91
Cincinnati, 1882-82 ............................................ Apr. '82, 21-22
Optical phenomena, summary .................................. Nov. '73†
Oregon weather service, report ................................ Mar. '87†
Oswego, Ill., monthly and annual precipitation, 1850–7 (Seely). Nov. '87, 315
Ozone, average from 15 stations in Tennessee, Oct. '86........... Oct. '85, 270

P.

Palestine, climate, (Merrill).......................... Aug. '88, 198–194
Paramaribo, summary of observations, July 1878–Feb. '79......... May '79, 7
Parkersburg, W. Va., annual mean and max. temperatures, 1880–5 (Farrow)........ Dec. '85, 301
Pekin, Ill., curves of meteorological elements for March, 1886... Mar. '86, ch.

- **Washington**: Walla Walla, 1872-'82, monthly means and extremes... Apr. '88, 82
- **West Virginia**: Helvetia, 1876-'86, monthly means... Dec. '86, 301
- Parkersburg, 1880-5, annual means and max... Dec. '86, 301

Temperature notes and extracts:
- belt of thermal contrasts on side of high area... Feb. '74, 5-6
- connection with sun spots (Lancaster)... July '77, 11
- increase with altitude (Alliard)... Nov. '78, 12
- methods of observing at distant places... Feb. '79, 12-13
- observations of the "Vega," 1876-9... Nov. '79, 15
- inversion at Puy de Dome (Alliard)... May '80, 16; Dec. '82, 25-26
- cold winter of 1880 at Saint Michael's... Sept. '80, 14-15
- low Siberian (Woeikof)... May '81, 20
- cold of October, 1880, at Saint Petersburg (Wild)... Dec. '82, 25
- thermal belts of North Carolina (Chickering)... Feb. '85, 62
- (Blake)... July '87, 224
- dipping of freezing point plane before thunder storms (Probasco and Hazen)... Dec. '86, 360-361
- Hampshire natural history society, observations... Mar. '87, 88
- inversion in White Mountains... Mar. '87, 88
- effect of rainfall on (Mayer)... July '87, 206
- daily mean from max. and min. thermometers... July '87, 207

Temperature of water, summary... July-Aug '78; Feb. '74†

(On ch. 11 to Dec. '83)

- observations from San Francisco to Yokohama by s. s. "Alaska"... Apr. '77, 8
- deep sea, and oceanic circulation (Carpenter)... Dec. '78, 12
- observations on the "Guinevere" (Sherman)... Feb. '81, 19

(See also, Earth temperature.)

- Tennessee, comparative table of observations, 1883-6... Dec. '85, 320
- Tennessee meteorological department, report... Feb. '83†
- Texas, rainfall in cotton region, 1882-6... Sept. '85, 200
- droughts (Hazen)... Apr. '87, 119
- Thermal belts of North Carolina (Chickering)... Feb. '83, 62
- (Blake)... July '87, 224

- Thermometers, Moritz's... May '77, 11
- quarts (Joubert)... Nov. '78, 12
- direction for setting up minimum, and uniting column of mercury... Mar. '86, 86

Thunders-shows, summary... Jul. '77; Feb. Apr. '74†
- distribution in United States... Jul. '78, 1, ch.; June '76, 6
- Haute Savoie, France... Apr. '77, 12
- New England, Aug. '78... Aug. '78, 4-5
- notes on storm in western Ontario... July '83, 172-178
- notes (Hazen)... Aug. '84†

- mean number per station in all districts for Sept. and Oct. 1851-'73, with table of magnetic declination (Hazen)... Sept. Oct. '84
- comparison of mean number in Sept. and Oct. '84, by districts, with mean for 1854-'73 (Hazen)... Sept. Oct. '84
- connection with tides (Hazen)... Oct. '85, 284
- report (Hazen)... Apr. '86†
- origin and distribution (Davis)... July '86, 156-196
- frequency at Roseburg, Oregon... July '86, 196-197
- charts showing number in each state, Aug. 16, Sept. 19, (Hazen)... Aug. Sept. '86, ch. viii
Thunder-storms, dipping of the freezing-point plane before (Alaska and Hazen) Dec. '86, 860-861 coincidence with sun spots (Vee <7>). 7206

INDEX OF CHARTS.

ANNUAL REPORTS AND MONTHLY WEATHER REVIEWS.

(Report charts are cited by their consecutive numbers or letters, and by page when bound in text. Review charts are cited by months, the Roman numerals being added when possible. To June 1883, the Review charts are republished in the Reports, unless indicated otherwise. For reference table of Reviews in Reports, see page 2.)

A.

Allegany river, profile oscillations, Jan '75–June '88 1874, 54; 1876, 74; 1876, 77; 1877, 17; 1878, 55; 1879, 69; 1880, 107; 1881, 63; 1882, 31; 1888, p. 262

Arkansas river, profile oscillations, Oct '74–June '75; July '78–June '82 1874, 64; 1876, 72; 1879, 78; 1880, 108; 1881, 67; 1882, 32; 1888, p. 262

Auroras, map of stations, Apr. 7, '74, with lines of magnetic declination and inclination 1876, 2, p. 311 frequency, and range of air pressure, at Paris, Vienna, and London, 1750–1860 1882, p. 141

B.

Balloon ascension, Rochester, N. Y., Sept. 8, '72, path, with temperature observations 1872, p. 262

Nashville, Apr. 8, '77, path and observations Apr. '77 (Not in Annual Report.)

Nashville, June 18 and 19, '77, path June '77, iv (Not in Annual Report.)

Chicago, Oct. 18, '81, pressure along path 1882, 20, p. 879

Barometric reduction (see Pressure).

C.

Canal regions, map 1876, 80; 1888, 2, p. 19

Charleston earthquake area, map Aug. '86, vii

Cloudiness, seasonal means, 1882, for United States 1884, 1–4, p. 122

Clouds, direction of motion, Apr. 28, '77 1875, 74; 1880, 109; 1881, 68; 1892, 9, p. 139

Columbia River, oscillations, July '78–August '83 1876, 74; 1880, 109; 1881, 68; 1882, 86; 1888, p. 262

Cotton region, map 1882, 61; 1884, p. 154

Cranberry districts, map 1888, 2, p. 19

Cumberland river, profile oscillations, Oct. '72–June '83 1873, 9, p. 304; 1874, 61; 1875, 76; 1876, 79; 1877, 18; 1878, 67; 1879, 70; 1880, 110; 1881, 64; 1882, 35; 1883, 262

Cyclones (see Storms).

D.

Districts, indications 1875, 47; 1875, 88; 1880, 2, p. 166; 1881, 49; 1888, 7, p. 699 frost warnings 1883, 2, p. 19

E.

Earthquake area, Charleston 1884, 1–4, p. 122

Earth temperature, curves with moisture, for June '86, '87 1880, 926

Eclipse of July 29, '78, temperature at Colorado Springs and Lake House 1880, p. 927

chart of path and weather

Electrical observations, curves of hourly, monthly and yearly means, Saint Louis, 1861–71 1871, p. 66 curves of readings Apr. '86–Apr. '87 mean values for Washington, Boston, and New Haven 1886, vi

instruction for self-recording............................. 1872, 181-186
synopsis of lectures (Abbe).................................... 1882, 97-108
outfit of Lady Franklin Bay and Point Barrow expeditions... 1883, 559-801
standards, location, &c....................................... 1883, 10-11; 1884, 21-28; 1885, 13-14, 14-15
report of work on standards............................... 1888, 660-662; 1884, 59-61, 90-91; 1885, 565-567;
1886, 208-209
description and use (Pollok)................................ 1884, 107-111
treatise on meteorological apparatus and methods (Abbe)...... 1887, pt. 2.
contents : chapter I.—General history and development of thermometers.
II.—Modern thermometry ; the air thermometer.
III.—The mercurial thermometer.
IV.—Exposure of thermometers.
V.—Miscellaneous forms of thermometers.
VI.—Thermographs.
VII.—The barometer in general.
VIII.—The mercurial barometer.
IX.—Miscellaneous barometers.
X.—Barographs.
XI.—Introductory on the measurement of the air.
XII.—Observation of wind direction; anemoscopes.
XIII.—Direct measurement of wind velocity.
XIV.—Estimates and arbitrary scales.
XV.—Pressure anemometers.
XVI.—Suction anemometers.
XVII.—Rotation anemometers.
XVIII.—Observation of upper currents; nepheloscopes.
XIX.—Hygrometry.
XX.—The measurement of rain and snow.
preparation of treatise........................................ 1887, 42-48
sale to private parties...................................... 1887, 47-48, 160-161
International bulletin, summary of work.................. 1870, 10; 1871, 14-15; 1873, 311-312;
1874, 98; 1875, 91-92; 1876, 104-106; 1877, 117-118; 1878, 147-152;
1879, 156-152; 1880, 179-186; 1881, 54-58; 1882, 58-59; 1883, 18;
1884, 28; 1885, 29-30; 1886, 26; 1887, 20-21
memorandum on exchange of reports with Russia and Turkey..... 1873, 1108-1109
Maps (see Weather maps).
Marine agencies.............................................. 1882, 58-61; 1885, 9; 1886, 10
report of officer in charge.............................. 1886, 217; 1887, 149
Marine service, form of log .............................. 1871, 139; 1876, 114-116; 1877, 118-119; 1878, 140-150; 1879, 187-188; 1880, 184-186; 1881, 66-68
lists of vessels and naval stations forwarding reports...... 1874, 402-408; 1875, 138;
1876, 147; 1877, 178; 1878, 276-217; 1879, 501-502; 1880, 524-527; 1881, 869-872; 1882, 847-854; 1883, 89-40

instructions for shipmasters comparing barometers.............. 1878, 676-677; 1879, 600; 1880, 529

Massachusetts militia encampment, meteorological record........ 1883, 651
Mathematics, synopsis of lectures (Waldo).............. 1882, 145-172
Meteorological observatory, report...................... 1883, 688-639; 1884, 89-90
Meteorological problems, proposed to scientists.............. 1881, 1257-1255
proposed to officers and enlisted men........................ 1881, 1265-1261
Meteorological record .................................... 1882, 51-63; 1885, 19; 1886, 28; 1885, 30; 1886, 26
Meteorological record division, report of officer in charge...... 1885, 627; 1886, 203-204
Meteorological summary, monthly and annual.................... 1881, 15-16, 805-841; 1882, 789-790;
1883, 278-964; 1884, 404-693; 1886, 224-507; 1886, 823-848; 1887, 224-247

Meteorology, recommendation of study at military and naval schools...... 1871, 16

study ................................................ 1882, 78-74; 1885, 2; 1884, 8; 1886, 8
titles of works recommended for study................................. 1883, 659-659
preparation of text books on.................................. 1882, 79-74; 1888, 2-3; 1884, 8;
1886, 5; 1886, 8-9; 1887, 42-48
suggested course of study for scientific scholars.............. 1884, 75
synopsis of lectures (Hazen)................................ 1882, 132-142
recent advances in (Ferrel)................................ 1885, pt. 2
treatise on meteorological apparatus and methods (Abbe)........ 1887, pt. 2

(For table of contents see under Instruments.)

Metric system, question of adoption by service............... 1881, 68
“ Metropolis,” services rendered at wreck.............. 1878, 175-177
Mexican service, organization.............................. 1878, 147; 1879, 184-185; 1880, 179
Michigan weather service, establishment.................... 1882, 763
act.................................................. 1886, 381-382
annual report............................................. 1886, 87-89
appropriation act and crop bulletin...................... 1887, 90-92
Military telegraph lines, copy of act to aid in construction, and secure use
to government........................................... 1878, 888
construction, order and report.................. 1874, 378-380
copy of act to protect.................................. 1874, 888
extracts from acts for construction, protection and maintenance... 1875, 364-365
instructions for construction, equipment and management........ 1875, 440-444;
1881, 811-828
annual summary ........................................ 1874, 101-108; 1875, 104-107; 1876, 117-121; 1877, 144-147;
1878, 179-184; 1879, 228-227; 1880, 226-228; 1881, 82-87;
1882, 86-42; 1883, 12-18; 1884, 28-24; 1885, 10-11; 1886, 16-17; 1887, 31
annual report of officer in charge... 1888, 603-606; 1884, 80-89; 1885, 547-549; 1886, 186;
1887, 89-92; 1887, 141-144
offices and receipts...................................... 1886, 190; 1887, 164
Military telegraph stations, list and annual report... 1877, 80-108; 1878, 101-180; 1879, 116-150; 1880, 94-148; 1881, 194-250
value of reports........................................... 1878, 184

Minnesota weather service, annual report...................... 1886, 78-81; 1887, 100
Mississippi river, report on danger-line (Greely).............. 1874, 920-921
high and low water, and danger-line at various stations........ 1882, 751-750
study of rainfall and drainage for 1882 (Ellis).............. 1887, 121-125
(See, also, in Index of charts, p. 20.)

Mississippi weather service, report...................... 1887, 84-86
Missouri river, report on danger-line (Greely).............. 1874, 920-921
table of high and low water and of danger-line at various stations..... 1878, 859
(See, also, in Index of charts, p. 20.)

Temperature tables, monthly max., min., and annual range at Central and Southern Pacific stations... 1882, 292-294; 1888, 178-180; 1884, 288-291; 1885, 132-135; 1886, 498-441; 1887, 842-846
monthly and annual max. and min., with precipitation, at 3d class stations
1882, 296-296
monthly and annual max. and min., with precipitation, at stations in Alaska
1882, 297
mean monthly and annual computed from commencement of observations
1888, 86-90; 1884; 198-201; 1885, 79-81
highest summer and lowest winter ip each state and territory for 1871-'81
1882, 371-372
mean normal from Nov. '79-Oct. '82
1888, 99-102
mean monthly ranges from commencement of observations
1883, 103-107
mean daily range for each month
1888, 108-115; 1884, 207-210; 1885, 91-93; 1886, 416-418; 1887, 252-254
highest for each month and the year
1888, 126-130; 1884, 252-246; 1885, 94-103
lowest for each month and the year
1888, 125-134; 1884, 252-246; 1885, 104-114
average daily max. and min. at cotton-region stations
1888, 162-168; 1884, 164-166
mean annual at selected stations from 1874...
1884, 202-203
mean monthly and annual at selected stations from 1879...
1884, 204-206
mean a. m., p. m., and midnight for each month from the commencement of observations
1884, 220-223; 1886, 144-149; 1887, 282-287
mean seasonal, with average precipitation, from commencement of observations
1884, 224-226; 1885, 151-158
max. and min. monthly
1884, 224; 1888, 116-125; 1884, 228-238
means of daily max. and min. for each month
1884, 254-259
mean max. and min. for months at cotton-region stations
1884, 292-304; 1885, 186-188; 1886, 442-444; 1887, 278-281
mean for each month computed from Nov. '79...
1886, 82-84
mean monthly and departure from normal
1885, 85-97; 1886, 412-416; 1887, 248-251
mean at 7 a. m., and 11 p. m., for each month, computed from Jan. '80...
1885, 140-148
mean max. and min. for each month, computed from Jan. '80...
1886, 407-411
monthly max. and min. with precipitation at 3d order stations...
1886, 468-468
monthly mean max. and min. with precipitation, at 3d order stations...
1886, 468-469
mean max. and min. with number of days of .01 inch or more of precipitation at 3d order stations...
1887, 380-383
mean max. and min., with number of days of .01 inch or more of precipitation...
1887, 384-387
mean max. and min. for each month...
1887, 266-265
